### KEY SAFETY ENHANCEMENTS

- a** Clearer font style and larger font sizes
- b** Brand names removed
- c** Colour used to differentiate between product ranges and strengths
- d** Clear dual strength expression: I.U./ml Total dose
- e** Route of administration clearly displayed on front of pack
- f** Safety enhancements duplicated on vial & ampoule labels
- g** Minimal corporate branding

Please note: Monoparin® is now known as Heparin Sodium (Preservative Free).  
Multiparin® is now known as Heparin Sodium (Contains Preservative).  
Hepsal® and Canusal® are now known as Heparin Sodium Flushing Solution (Preservative Free).
